PICTORIAL NARRATIVE REPORT OF “BRIGADA ESKWELA” 2014

During the previous years, opening of classes started with cleaning of rooms and surroundings. Pupils were asked to bring cutters, brooms, dustpans and other cleaning materials to clean the school despite of wearing their new uniforms and shoes. The first day of the school was spent on cleaning arranging and fixing everything.

In order to maximize the time spent for learning and to involve the community the Department of Education launched Brigada Eskwela way back in 2009. It is also known as the National Schools Maintenance Week. This year, “Brigada Eskwela” was dated May 19-24, 2014 where all school stakeholders contribute their time, effort and resources to ensure that the school facilities are ready in times of the school opening and lessen possible risk during disaster caused by natural calamities.

This year Alauli Elementary School had made their mobilization plan months before the SY 2013-14 ends. Plans of activities and organization of the working committee for the brigada was already done before the graduation day.

The Kick off was with a district parade joined by all the elementary and high schools in Pilar.

Alauli Teaching Force poses for a souvenir photo with their School Principal Mrs. Jessica Torres and Dr. Jeolfa G. Reyes the District Supervisor.

The Parade ended at Pilar Elementary School which was graced by Hon. Alice Pizarro, the municipal Mayor of Pilar. She gave a very encouraging message on strengthening the support to all schools. She even pledged one thousand pesos each school from her personal money. After the program teachers and school heads returned to their respective schools to begin the “Brigada Eskwela”.

Brgy. Chairman Rodrigo Lulu, Ms. Alma Quizon of Margienor and Petron Gasoline, Mrs. Jessica Torres, School Principal and Mrs. Suzeth Lulu, Gen. Sch. PTA Pres. (center to right) sit together during the opening program of Brigada Eskwela along with the other stakeholders.

The school was able to have 569 total of volunteers and generated Php 11, 800.00 cash, paint materials worth Php 3, 280.00 and construction materials from Dasta Construction worth Php 11, 640.00.

According to teachers there were still incoming resources pledged by some alumni and private individuals who want to contribute. All of these will be recorded under the Adopt-a School Program of the school.

Overwhelming support was seen during the opening program in the school. It was attended by the Barangay Council of Alauli, headed by Brgy. Chairman Rodrigo Lulu. The Officers and Members of Gen. School PTA, Tricycle Drivers Association, Farmers Group, Task Force Kabataan, 4Ps Parents, SPG, Girl Scouts, Boy Scouts, Alumni, Private businesses (Petron Gas Station, Margienors&Marjelu).

Task to be undertaken each day by each group was posted in front of the gate. The day to day activities were accomplished.

After implementation, the school ground and surrounding are clean, beautiful and most of all safe. Each classroom is ready to accommodate pupils. The true essence of Welcome Back to School is indeed felt around.

To start the year right is a gift to our school children. The concerted effort of the whole community is an investment of having better citizens in the future. May the whole nation be always a part of the "Brigada Eskwela" May the spirit of Bayanihan dwells in all school.

To all our stakeholders, words are not enough to express our thanks. God bless them all!

Alauli ES Brigada in Action

Task Force Kabataan yells for the roll call

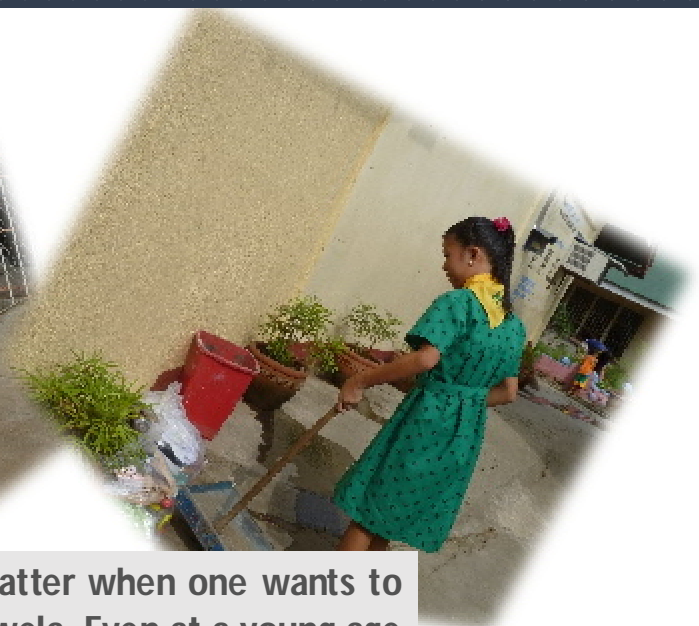

Parents sweep the ground.

Tricycle Drivers and Operators paint some rooms

Farmers group clears the tall grass near the agricultural creek inside the school.

Age does not matter when one wants to join Brigada Eskwela. Even at a young age one can make a difference

Parents of Pantawid Pamilyang Pilipino Program (4Ps) wear uniform to show they are one with the preparation of the school.
