**ACCOMPLISHMENT REPORT ON GULAYAN SA PAARALAN
SY 2013-2014**

The project is envisioned by the DepEd to help address hunger and malnutrition concern in the country.

Gulayan sa Paaralan is a project implemented in every school. For Liyang Elem. School, parents and pupils play a vital role in the preparation of this project. Parents made a "Bayanihan" preparation for the garden to be planted with different kinds of vegetables. The pupils then, where obliged to bring seeds to be planted in the garden.

The school garden shall serve as food basket or main source of commodities to sustain supplementary feeding. This school garden is spearheaded by the EPP teacher, Mr. Lorenzo B. Pascua under the leadership of Mrs. Benilda A. Atienza .

Pupils were grouped and assigned to make plots in their EPP class. They planted the following vegetables.

Kamatis

Sili

Pechay

Radish

Papaya

They also planted vines vegetables. We provided support to grow them well.
